October 2021

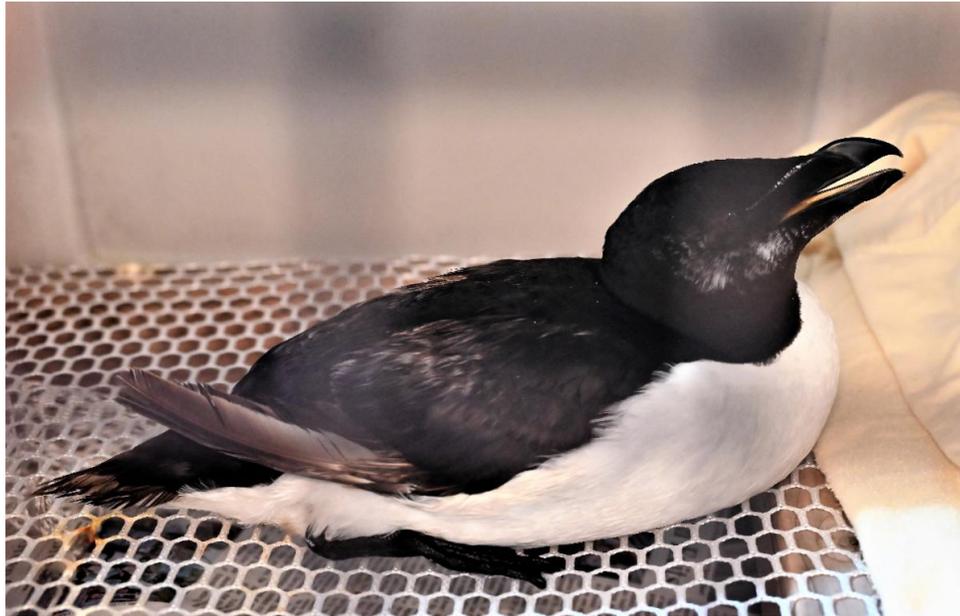

Wild Care Friends.

What a wonderful time of year. We have been fortunate to have great weather and lots of sunshine. We are not the only lucky ones! Birds are migrating and seabirds are arriving to spend their winters off our shores. They have been greeted by fair winds and mild weather.

Even so, some end up at our door...

A Common Eider grounded in a parking lot in Falmouth. (Released!)

A Razorbill coming to shore for a week before it could be caught, and missing most of the major flight feathers of its wings.

A Northern Gannet beached in Eastham with an infected and swollen foot and leg...

As always, we are super grateful to be here to provide a second chance for these amazing animals in need. We are here directly due to your support. Thank you!

About Wild Care

Since 1994, Wild Care has treated injured, ill and orphaned native wildlife for release back into the wild, capable of independent survival. We have prevented wildlife casualties through public education and counseling, and engaged the community in conservation services through volunteerism. Wild Care does not charge the public for our services. We accept wildlife regardless of a rescuer's ability to make a donation; and we never compromise quality of care or the dignity of an animal's life for fundraising purposes.
